Professional Summary

Senior WordPress Developer with 11+ years of experience building, customizing, and maintaining WordPress websites for businesses and agencies. Experienced in PHP, HTML, CSS, JavaScript, Elementor, Divi, Gutenberg, Kadence, and Oxygen, with hands-on experience developing custom plugins, custom post types, ACF solutions, and third-party/API integrations. Skilled in responsive development, troubleshooting, performance optimization, technical SEO, website migrations, and maintaining complex WordPress environments. Comfortable working independently or with distributed teams to deliver reliable, scalable, and maintainable solutions based on client and business requirements.
